C F 69] 2977 (a) T D grant — Shimoga dt (1

Continuation Sheet — File No / Current No — of — Page 1

From the D C Shimoga Dt
No 873-C-379/44-8-30/10-44.

Asks proposals for the T D grants required to carry out improvement works in several cities in the Shimoga Dt

In the state budget for 44-45, a separate provision of Rs two lakhs is made for the drainage works apart from the provision of Rs two lakhs usually made for T D works

The following proposals relate to T D works towards which grants from out of the T D grant may be given

Shimoga Town Ltd — Rs

1 Tarring Poddapet Road — 15,120
2 Tarring Balaraja ms Road — 29,700
3 Tarring chuk Brahmin street — 22,176
4 " " Agy Brahmin " — 10,692

In the above works, the entire estimated cost is proposed to be met by the govt the question of giving govt grant in the behalf may perhaps be considered after the receipt of definite proposals from the Md C

Definite proposals may be awaited Meanwhile the Md C should prepare a five year programme of public improvement works for town approval of Govt Next it should pay attention to the expenditure from C&D grants

Sir,

21 SEP 1944

Subject - Town Improvement & Water Supply grants
--

I have the honour to state that the Municipal Council at its ordinary General Meeting held on 20-8-44 resolved that Government may be requested to kindly extend grants for the following improvements in Shimoga Town during the current Official year

TOWN IMPROVEMENT

1) Tarring Dodpet Road	Rs 15,120/-
2) Tarring Balaraj Urs Road	29,700/-
3) Tarring Chik Brahmin Street	22,176/-
4) Tarring Dod Brahmin Street	10,692/-
5) Closing pits in Town limits as a permanent Anti-Malaria measure	10,000/-
6) Aquisition of the vacant land belonging to Mr A Srinivasa Iyengar	10,000/-

WATER SUPPLY IMPROVEMENT

1) Providing a Diesel oil Stand by engine and pumping plant	50,000/-
2) Improvements to the distribution system	10,000/-
3) Construction of settling tank	30,000/-

In this connection, I may be permitted to add that the Council has been considering these improvements for the last four years, but has not been able to move forward on account of its slender resourses

1 The Dodpet Road was tarred in 1937 and it is now badly

p t o

pitted and requires to be picked thoroughly and recoated with bitumen It is estimated to cost Rs 15,120

2 Balaraj Urs Road connects the Town with the new Railway Station and carries a heavy traffic. It runs by the side of the Public Offices. Recently this is also serving as the main supply road to the Military Camp stationed in a high state of efficiency It is therefore suggested to ~~xx~~ tar this road with Mysore bitumen emulsion and the work is estimated to cost Rs 29,700

3 Chik Brahmin Street is also an important road in the Town with Arecanut Godowns on either side of it This road runs in one of the most thickly populated parts and it is very necessary to have the road free from dust in view of the health of the neighbouring residents

4 Dod Brahmin Street This road really consists of the Kanchugar Street, the Brahmin Street and the Nalbund Street running through the most thickly populated and the most important part of the Town and neglected to a considerable extent It belongs to a division which though most populous has received comparatively least attention Traffic is no less here and in the interest of the health of the people, tarring is absolutely essential to rid the locality of dust and all that tribe of ills resulting therefrom

5 All round the Town there are a large number of odd pits which hold stagnant water for five months following the rainy season. These are the breeding places of Anophaline mosquitoes The Municipality has been spending four to five thousand rupees on temporary anti-malarial measures As a permanent measure it is necessary to close these pits A lump sum grant of Rs 10,000 is prayed for in this connection

6 There is an extent of nearly thirteen acres of land belonging to Mr A Sreenivasa Iyengar in the centre of the Town

to the west of old Marthahalli Road The owner has allowed this vast area to be overgrown with rank vegitation resulting in permanent nuisance to the residents near by This land is proposed to be acquired and converted into healthy building sites after forming roads and lanes A grant of Rs 10,000 for this purpose is requested

WATER SUPPLY IMPROVEMENTS

1 There are two electric motors with pumps for the supply of water to the Town The need for an adequate standby pumping plant was badly felt during the long shut-down of electric power in the month of May 1944 It has therefore been thought necessary to have a powerful Diesel oil engine and pumping plant as spare in times of emergency A grant of Rs 50,000 for this purpose is solicited

2 A large portion of the Town is still not provided with submains in some of these parts is got ready through the Sanitary Engineer, and the Council has sanctioned the estimates A grant of Rs 10,000 during the current year is solicited in this connection

3 The daily consumption of water in this Town is 5,00,000 gallons and this quantity of water is directly pumped into the distribution system through a pressure filter from the river The filters get clogged very frequently and filtration is not satisfactory particularly when the river is in floods It is proposed to construct settling tanks for preliminary elemination of suspended impurities and relieve unnecessary pressure on the filter and save the distribution lines from getting chocked early A grant of Rs 30,000 is prayed for in this connection

In view of the urgent nature of the several items of Town and Water Supply improvements mentioned above, I request you to

14/ నీటి సరఫరా పథకాలకు సంబంధించి గ్రామాలకు కేటాయించవలసిన నిధులు —

(1) Diesal or Stand by Engine కొనుగోలు — Rs 30 000/
(2) Distribution System - అభివృద్ధి పరిచుట — 10 000/-
(3) Settling Tank కట్టుట — 30 000/.
